Pop in a cartridge and hear music anywhere you go—at home, in the car or at the beach. Get the gang together and you'll have a swinging party in no time. So simple it's child's play . . . so entertaining it's adult pleasing.

Powerful circuitry with 5 long-life transistors sends out rich sounds instantly—no warm-up. 2 1/4-inch speaker delivers full-bodied, clear tones. Each tape plays for 10 to 12 minutes. Hear a continuous performance by just leaving the cartridge in. Removing cartridge automatically stops tape play. It's possibly the best thing to happen to music since the phonograph.

Only two knobs to turn—one for volume control, the other for choice of track on the 2-track tapes. Permanent-magnet electric motor provides steady

speed for consistent sound reproduction. Laboratory tested and approved quality made by a leading electronics manufacturer in Japan. High-impact plastic case features a built-in carrying handle . . . 10x6 1/2 x 3 3/4 inches deep.

Pre-recorded magnetic tapes are sealed in shatter-resistant plastic cartridges, 3 1/4 x 3 x 1/2 in. deep. 38 titles now available—with a wide-range of listening enjoyment. Tapes not included, order separately below.

Solid-state transistorized circuitry—no tubes to replace. Uses 4 low-cost "C" batteries—order below. Why not pick up your phone and order it?
